

"Human well-being is not a random phenomenon. It depends on many factors - ranging from genetics and neurobiology to sociology and economics. But, clearly, there are scientific truths to be known about how we can flourish in this world. Wherever we can have an impact Sam Harris on the well-being of others, questions of morality apply."

Sam Harris

HOD's Message:

This is a pleasing fact for us that it will be the 1st issue of 'Humanica' the newsletter of Department of Humanities, JIST for the period of 1st January to 31st December 2021. This issue will be a replica of last year's departmental activity and achievements of the students.

Due to pandemic situation normal class activities have been shifted to virtual mode and completed very successfully till the starting of physical classes. We are happy to announce that the class tests in both online and offline mode has been completed very fruitfully without technical difficulty.

Here, I would like to take the opportunity to thank all faculty members of the department, students and of course the editorial team to make this newsletter possible. Above all, I would be grateful to Principal, JIST for inflaming us to publish this first ever departmental newsletter.

Barnali Das

Activity of the Department:

- Department has organized faculty meeting on the subject of online and offline exam and project supervision as well as viva of the 3rd semester students on 6th March,2021
