## VISION:

To prepare academically excellent, research oriented, competent resources through quality and value based education and to carry out research and technology in relevant field of engineering to meet the needs of current industries, society and nation.

## MISSION:

- To provide students with the theoretical knowledge blended with practical skills thereby building core competence of students.
- To build up leadership quality and professional creativity in our students.
- To carry out research through constant interaction with research organization and industry.
- To enable students to organize various technical events which will bring out their inherent talents.

## DEPARTMENT OF ETC

### **ABOUT THE DEPARTMENT**

The Department of Electronics and Telecommunication Engineering (ETC) was established in the year 2009. The Department of ETC offers .B.Tech programme(4years ) in Electronics and Telecommunication Engineering. Since the inception, the Department offers wide range of courses which address almost the entire arena covering VLSI, Microwave engineering, Communication, linear electronics, signal processing to mention a few. The department aims to create competent Electronics and Telecommunication engineers to serve the needs of modern advance technology and the nation as a whole. To compete these the department has well equipped laboratories like Electronics Device lab, analog electronics lab, VLSI lab, Microprocessor, Embedded system lab ,Optical Communication lab ,Communication lab, measurement lab mentioning a few with various modern software's and instruments. Keeping in mind of day to day advancement in electronics technology, the syllabus of the programme has been updated with new credit system(Credit Based Assessment System) following the model syllabus provided by AICTE.

Students of ETC do their internship training at different organizations like BSNL,OIL,ONGC,NRL, in research labs etc. Passed out students have been successfully placed in different leading organizations like Capgemini,TCS ,Wipro, Zaloni etc with some of the students have pursued higher studies in IITs ,IIMs and in abroad.

## **FROM PRINCIPAL'S DESK**

I feel privileged to send a message for the inaugural issue of ETC Newsletter. Newsletter, going by its etymological meaning, is informal news. However, as an official document, departmental newsletter takes a formal identity. It is supposed to showcase the academic and extra/Co-curricular activities of students, non-teaching staff and faculty members. I believe, this quarterly publication will bring out the best of all stakeholders of ETC Department and enthuse all concerned towards continuous all round development of the department.

## **FROM HOD'S DESK**

I am very happy that our Electronics and Telecommunication Engineering department is releasing 1st issue of “Bits and Bytes” as a reflection of department activities. It is a technical platform to bring out the hidden talents of students and faculty. The major strength of the department is a team of well qualified and dedicated faculty and staff who are continuously supporting the students for their academic excellence.

I invite the readers of “Bits and Bytes” for their valuable contributions and suggestions for the forthcoming issues.
